(bottom & middle)
x2

A4 Top Shelf
x1

B1 Bolt
x12

B2 Bolt
x6

B3 Nut
x12

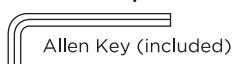

B4 Washer
x6

B5 Wood Button
x8

Tools Required

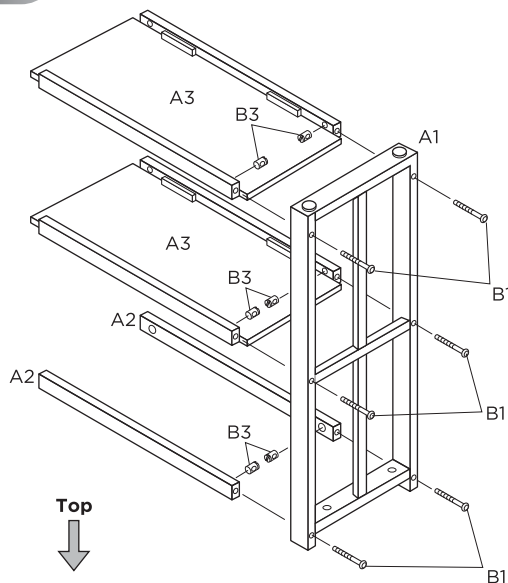

Allen Key (included)

WARNING: Read and follow all warnings and instructions to avoid personal injury to pet or property damage.

READ BEFORE ASSEMBLY

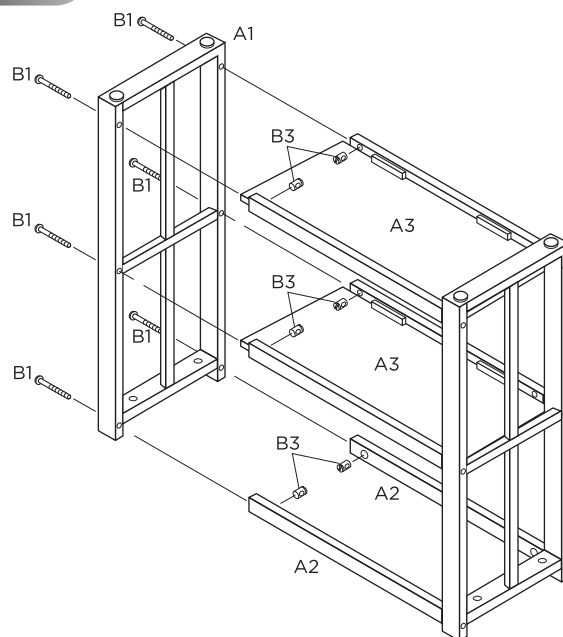

- It is recommended that tank stand is assembled by two adults
- Save all packaging until assembly is completed
- Read ALL instructions
- Do not assemble on uneven flooring, including carpet
- Assemble on a clean non-marking surface
- Unpack all parts and hardware and check list to ensure nothing is missing

STEP 1

It is recommended to assemble the stand on it's side. Attach both (A3) Bottom and Middle Shelves along with both (A2) Top Cross Bars to (A1) Right Side Frame using (B1) Bolts and (B3) Nuts as shown.

STEP 2

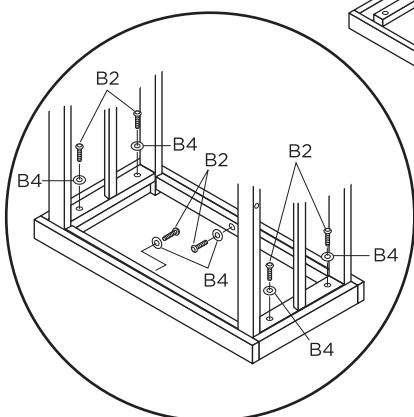

Repeat Step 1 with (A1) Left Side Frame.

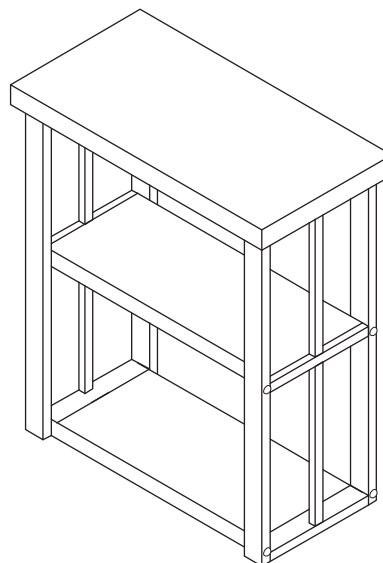

20-GALLON WOOD TANK STAND

STEP 3

Attach (A4) Top Shelf to both (A1) Left and Right Side Frames and to (A2) Top Cross Bars using (B2) Bolts and (B4) Washers as shown.

Congratulations! You now have a beautiful piece of furniture to showcase your aquarium or terrarium.

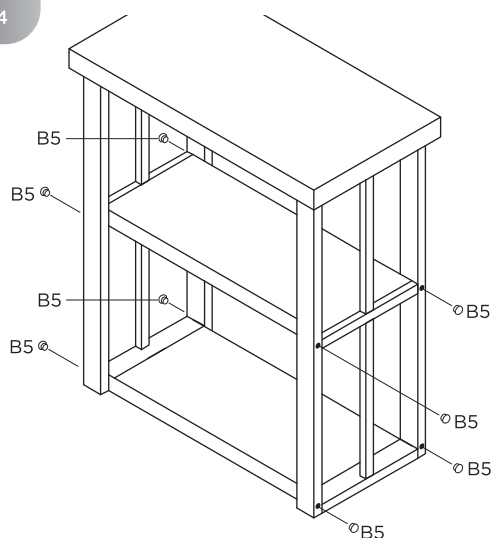

CARE OF WOOD

Subtle variations in color and grain patterns inherent to each of the materials may occur. These natural characteristics enhance the unique beauty of each material. Avoid any extreme humidity or temperature, which can accelerate cracking of finish. This can also loosen joints and veneer. Avoid direct sunlight as much as possible. UV light will cause discoloration of the wood. Set anything wet or prone to condensation (beverage glasses) on surfaces with a coaster or mat for protection. Dust often with a soft cloth. Occasionally use a slightly dampened (with solvent-based cleanser) cloth to wipe the surface. This will help pick up more dust. When finished, immediately wipe with a dry cloth or soft paper towel. Do not use abrasives. To help prevent scratching of table top surfaces, a furniture paste can be applied following manufacturer directions. FOR DARK WOOD FINISHES: The surface of these finishes can be easily scratched, therefore, we do NOT recommend any furniture polishes or waxes. Wipe the surface down with a mild surface/counter cleaner using a soft cloth. Take extra care to protect these surfaces with placemats and runners in order to prevent light scuffing from daily use.

CAUTION: Follow assembly instructions closely. To avoid damage to aquarium, bottom surface of tank should be flat and level when placed on stand. Wipe off excess water to preserve the finish of the stand. Inspect regularly to ensure that there are no cracks or other damage. Place stand on level and stable ground. For additional stability, we recommend placing product against a wall or in a corner. As with most furniture, do not place in direct sunlight or damp area—may cause discoloration and potential rust on metal surfaces. Not recommended for outdoor use.

STEP 4

Carefully position tank stand so that it is standing right-side up. Carefully tap (B5) Wood Buttons into (A1) Left and Right Side Frames to cover up the hardware.

NOTE: Too much force can cause damage to the wood button or tank stand.
