4 Easy Steps to Select the Right Size

1: WIDTH

Measure the widest part of your pet, the chest or hips. Add two inches.

2: HEIGHT

Measure your pet from the top of the shoulders to the bottom of the chest or belly, whichever is the tallest part. Add two inches.

3: WITHERS

Measure your pet from the top of the shoulders to the floor to determine the rise needed.

Note: Rise is the height from the floor to the bottom of the flap in the pet door. It is the height the pet must step over to enter or exit the pet door.

4: SELECT SIZE

Based on your pet's width, height and withers, select which door flap opening and rise fits your pets comfort and ease of use.

Pet Door Size	Pet Weight	Maximum Withers	Pet Door Flap Opening		Pet Door Rise
			Width	Height
